On behalf of Cingular Wireless we are submitting this Conditional Use Permit to install a wireless antenna site at Lakewood Park.

The specific design is to attach to a light pole 3 pairs of antennas, each measuring 52" tall, 18" wide, and 6" deep. Said light pole is 56 feet 2 inches tall.

Antennas will be below light, 50 feet above grade.

Cingular Wireless will be replacing the existing snack shack and will put its equipment inside the new shack. The new shack will be 12 feet 6 inches high, and 16 feet by 16 feet in size.
